EDUCATION

Master of Software Engineering (ITMO & JB)

ITMO University

Aug. 2020 – Present time

St. Petersburg, Russia

Computer Science Center (JB & Yandex)

Three-year Degree Program in Data Science & Software Engineering

I have successfully completed the following courses:

- C++ • Python • Algorithms • Math statistics
- Database • Discrete Math • Probability theory

St. Petersburg, Russia

Aug. 2019 – Present time

Bachelor of Physics

Alferov Federal State Budgetary Institution of Higher Education and Science

Saint Petersburg National Research Academic University

of the Russian Academy of Sciences

Aug. 2016 – May 2020

St. Petersburg, Russia

Engineering Lyceum №83 named after Pinsky, UGNTU

Aug. 2014 – May 2016

Ufa, Russia

PROJECTS AND RESEARCH

Bigsisister

Educational service that monitors student activity. Reward with bonuses that can be spent in the store.

- Kotlin • MongoDB • gradle • ReactJS

2020-2021

Lambda Lab

Site for company

Write a website in html, css, javascript. Then they wrapped it in Wordpress so that you could make changes by replacing part of the code in php files. Then I raised the server, configured nginx and launched the project on the server. [repo](#)

- nginx • HTML • CSS • PHP • javascript

2020

Mathematical model of the action of isoniazid on mycobacterial tuberculosis cells

- MATLAB

2019-2020

Academic University

SKILLS

Programming Languages:

- C++ • Python • Haskell • Kotlin • SQL • Bash • MATLAB

Frameworks & Libraries:

- NumPy/SciPy/Matplotlib/Pandas • PyTorch • Catboost • Scikit-Learn • Flask

Databases:

- Postgres • MongoDB

DevOps:

- Git • Docker

LANGUAGE

• Russian: Native

• English: B2
